

Course Name: Active (Shooter) Assailant Safety

Duration: 1.00

CEUs: 0.10

Description:

An e-Learning course that teaches industry best practices to prevent, recognize, plan, and react to an active assailant incident. Strategies are provided that can be applied in a facility's Emergency Action Plan including tactics on how to escape, hide, and fight against an assailant attack. Understand how to plan for an attack, identify responsibilities for leadership, and know how to prepare a crisis kit when developing an Active Assailant (shooter) EAP. Participate in video-based scenarios with newly acquired skills.

Audience:

A course designed for individuals working in supervisory or leadership roles:

- Persons responsible for developing EAPs
- Persons working in Emergency Response
- Persons responsible for responding to emergencies at their workplace.

Course is intended for use at any facility that may currently be vulnerable to security threats or considered soft targets for assailant incidents.

Prerequisites:

Persons enrolling in this course must:

- Pay a registration fee before accessing the course.
- Possess a computer or handheld device to access the course materials to complete the course.

Evaluation:

Successful evaluation includes:

- Completing all lessons in the course
- Finishing every activity and assessment successfully
- Completing a class evaluation survey in the LMS.

Note: Participant records are updated within fifteen (15) days after the last scheduled class for the program. You may access your updated training record after receiving an invitation via SMS/email from Ellis Education Services to complete a class evaluation survey. Upon completion of the class evaluation survey, you will be able to:

1. View your updated student record with the completed class listing
2. Access your training credential (certificate / license)
3. Purchase any eligible CEUs associated with the program
4. Access and print a copy of your updated training record showing all training history and CEUs by using the Print Screen feature in the Portal.

Outcomes:

Upon completion of the course students will be able to:

1. Review past active assailant incidents in the United States.

2. Identify common motives and traits behind an active assailant.
3. Prepare a plan for an active assailant (shooter) attack.
4. Identify roles and responsibilities for different levels of leadership tasked with preventing and responding to active assailant (shooter) incidents
5. Recognize indicators of violence that assailants display.
6. Identify what should be included in an active assailant EAP.
7. Describe each of the three options of escape, hide, or fight available if an active assailant (shooter) incident occurs.
8. Describe the process of dealing with the aftermath of an active assailant (shooter) incident.
